Notice of Meeting:
I hereby give notice that an ordinary Meeting of the Regulatory and Hearings Committee will be held on:

Date: Tuesday 13 March 2018
Time: 1.00pm
Meeting Room: Committee Room 1
Venue: Municipal Building, Garden Place, Hamilton

Richard Briggs
Chief Executive

Regulatory and Hearings Committee
OPEN AGENDA
(Parking Restrictions and Traffic Bylaw Changes)

Membership
Chairperson: Cr Angela O’Leary
Deputy Chairperson: Cr Leo Tooman
Membership: The Mayor and all Councillors
(The composition of any Regulatory Hearings Committee for quorum purposes to be determined by the Chairperson)
Meeting frequency: As required
Quorum: Three members

Claire Guthrie
Committee Advisor

5 March 2018
Telephone: 07 974 0503
Claire.Guthrie@hcc.govt.nz
www.hamilton.govt.nz
Purpose:

1. To conduct fair and effective hearings and make determinations on a range of the Council’s quasi-judicial functions under legislation and other matters as referred to the Committee.
2. To convene and coordinate Task Force groups on matters referred by other Committees.

The Committee is delegated the following Terms of Reference and powers:

Terms of Reference:

1. Hear and determine any statutory or regulatory hearings under relevant legislation unless otherwise delegated by Council, including (but without limitation):
   - objections under the Dog Control Act 1996;
   - matters regarding drainage and works on private land under the Local Government Act 1974 and Local Government Act 2002;
   - proposals for temporary closure of any road.
2. Consider and determine changes to the registers and parking restrictions in the Traffic Bylaw 2015, including hearing any submissions relating to those proposed changes.
3. Hear and determine matters arising under current bylaws, including applications for dispensation from compliance with the requirements of bylaws, unless such matters are otherwise delegated by Council.
4. Hear and determine other matters that require hearings or submissions, as referred by Council or other Committees.
5. To convene Task Force groups and carry out the terms of reference approved and referred by Council or other Committees.

The Committee is delegated the following powers to act:

- Approval of matters determined by the Committee within its Terms of Reference.
- Approval of activities and expenses relating to Task Force groups consistent with their terms of reference and approved Task Force group budget.

The Committee is delegated the following recommendatory powers:

- The Committee may make recommendations to Council.
- The Committee may make recommendations to Committees.

Special Notes:

- The Committee may request expert advice through the Chief Executive when necessary.
- The Committee may appoint additional members for hearings where the relevant terms of reference specify the requirement for expert or external representation.

1 Apologies

2 Confirmation of Agenda
The Committee to confirm the agenda.

3 Declaration of Interest
Members are reminded of the need to be vigilant to stand aside from decision making when a conflict arises between their role as an elected representative and any private or other external interest they might have.
Purpose
1. To seek approval of proposed changes to traffic controls throughout the city.

Staff Recommendation
2. That the Regulatory and Hearings Committee:
   a) approves the changes to parking restrictions and controls as set out below:

<table>
<thead>
<tr>

**Executive Summary**

3. The Hamilton City Traffic Bylaw 2015 sets out the requirements for transport related activities within the road reserve. A Council resolution is required to make changes to any of these restrictions.

4. The changes proposed for approval in this report are considered in two categories:
   - parking restriction changes include No Stopping, bus stops and time limits
   - Traffic Bylaw - changes to various registers including:
     - Special Vehicle Lanes Register – Part 2: Bus Lanes
     - Light Motor Vehicle Prohibitions Register – Part 2: Motor Vehicles under 3,500kg

5. Changes are recommended to improve safety and accessibility and can be identified by residents, businesses and staff.

6. Consultation has been completed for all proposed changes and in general there is support for the changes.

7. We have received feedback regarding the proposed installation of bus stops at various locations throughout the city to cater for bus route changes and also feedback regarding a proposed change to parking restrictions in Sandleigh Road. It is likely that we will have residents at the meeting to present their thoughts.

**Background**

8. The Hamilton City Traffic Bylaw 2015 sets out the requirements for a variety of restrictions within the road reserve including:
   - parking
   - general control of vehicular or other traffic e.g. banning of turns, installation of No Stopping restrictions
   - creation of cycle lanes
   - establishment of specific parking zones such as bus stops, taxi stands, loading zones.

9. A Council resolution is required to make changes to any of these restrictions.

10. Regular changes to traffic restrictions (including parking controls) are required throughout the city – often in response to requests from the general public or businesses in regard to safety or accessibility concerns. Opportunities for improvement are also identified by staff when
considering changes in parking use patterns, or changes made to the built environment e.g. developments or discretionary transport projects.

**Parking Restriction Changes**

11. Several changes are proposed to parking restrictions throughout the city and the details of each of these are scheduled in Attachment 1 with illustrations for each site shown in Attachment 2.

12. Consultation with adjacent property owners, occupiers and any other affected parties has been undertaken for each of the proposed changes. Generally the feedback received was positive and supportive of the proposed changes, except the proposals for the proposed changes to parking restrictions in Sandleigh Road and introduction of bus stops various locations. These are discussed further in the following sections of this report.

13. **Rototuna Circular and Flagstaff routes**

14. Late last year (2017) the Waikato Regional Council proposed changes to the Rototuna Circular and Flagstaff routes to provide greater coverage for the areas of growth in Rototuna – including the Rototuna Highschool on Kimbrae Drive. Maps of the new routes (which became operational in January 2018) are shown below:

![New Rototuna Circular Route](image-url)
15. In completing consultation on the proposed new bus stops on these routes, objections were received for the following locations:

16. **341 Borman Road** (outside Cumberland Kindy)

The Kindy staff are worried about ‘perverts and people taking photos of the children’.

We have installed a bus stop in a similar position further east on Borman Road outside a day care centre and they have not had any issues.

Bus stops were formed for this purpose at the time of constructing Borman Road.

This location caters for two bus routes (Rototuna Circular and Flagstaff).

17. Alternative locations are not available which will cater for both new bus routes and the infrastructure (bus bay) is already in place. While the Cumberland Kindy has raised concerns, these are not considered to be likely based on experience elsewhere on this bus route.

18. It is recommended that the bus stop outside 341 Borman Road be introduced as proposed by staff.

19. **80 Te Huia Drive**
The resident at #80 don’t want the stop at this location because they think that it is dangerous.

Their driveway to their house is on Hensley Cres and they have a large hedge that is between their house and Te Huia Drive.

20. Visibility on this route is reasonable for both directions of traffic. The bus stop will not have an impact on access into or out of #80 Te Huia Drive.

21. It is recommended that the bus stop outside 80 Te Huia Drive be introduced as proposed by staff.

22. 54/56 Cumberland Drive

The residents from both 54 & 56 Cumberland Drive are concerned about fumes and do not want it outside their house.

There were no concerns expressed about the bus stop proposed outside #59 Cumberland Drive.

23. The bus will only stop at these locations if there is a passenger to get on or off, and on average the bus will only be stopped for a very short period of time (ie less than a minute).

24. It is recommended that the bus stop outside 54 & 56 Cumberland Drive be introduced as proposed by staff.

25. Hillcrest Route

26. As part of streamlining routes in the Hillcrest area a couple of routes have been combined with Hayes Paddock included in the route.
Item 4

27. 16 Naylor Street

The resident of #16 Naylor Street is concerned that people would look over the fence into her house.

The house has a high fence and we would locate the stop as far away from the house as possible and closer to the neighbour’s driveway (right hand side of the photo)
28. This section of Naylor Street is a ‘limited route’ and will only have the bus use this stop once a day.

29. It is recommended that the bus stop outside 16 Naylor Street be introduced as proposed by staff.

**The Hamilton Traffic Bylaw 2015 Register Changes**

30. The Hamilton Traffic Bylaw 2015 (the Traffic Bylaw) has a series of registers that are able to be updated via Council resolution. Changes are proposed for two of the Traffic Bylaw Registers as set out below:

31. **Special Vehicle Lanes Register – Part 2: Bus Lanes**

32. The Waikato Regional Council (WRC) have made several changes to bus routes which will result in a decrease in the number that move along the southern end of Victoria Street, and will instead use the southern end of Anglesea Street, then turn into Anzac Parade to cross the bridge into Hamilton East.

33. A dedicated bus lane network on the southern end of Anglesea Street (Knox Street to Anzac Parade) and Anzac Parade (Angelsea Street to Victoria Street) is proposed for installation this year as part of the Discretionary Transport Programme. It was originally proposed to have the bus lane wrap around the court house corner of Anglesea/Anzac but safety concerns were identified with this proposal, and the major benefits for the buses can still be obtained by having the two separated sections of bus lane installed. The map below sets out the proposed extent of the bus lanes (in red).

34. The first stage of the bus lane network in Anzac Parade between Anglesea Street and Victoria Street was installed in February 2018 and has the bus lane operational between 6.00am and 6.30pm Monday to Saturday. There are no carparks available during bus lane operation hours however carparks will be available for night events, particularly given the proximity to Meteor Theatre.
35. The current bus lane in Anglesea Street that is in place between the intersection of Knox Street and Anzac Parade operates between 4.00pm and 6.00pm Monday to Friday, with parking being available outside of these hours.

36. The second stage will be to install the same restrictions in Anglesea Street between Knox Street and Anzac Parade ie bus lane operational between 6.00am and 6.30pm Monday to Saturday.

37. This will result in the loss of parking in this section – but the loss will be offset by the installation of angle parking in Knox Street on the southern side of the road in conjunction with the bus lane installation on Anglesea Street.

38. A signalised pedestrian crossing will also be installed in Anglesea Street to provide a safe crossing point for pedestrians who will have to cross five traffic lanes once the bus lane is introduced.

39. Consultation has been undertaken with adjacent businesses and no feedback has been received.

40. It is therefore proposed that the current restriction in the Special Vehicle Lanes Register – Part 2: Bus Lanes be amended to read:

<table>
<thead>
<tr>
<th>Location</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Anglesea Street</td>
<td>A carriageway lane on the eastern side of Anglesea Street from the intersection of Knox Street continuing 165m in a southerly direction towards the intersection of Anzac Parade. This lane will operate between 6.00am and 6.30pm Monday to Saturday.</td>
</tr>
</tbody>
</table>

41. **Light Motor Vehicle Prohibitions Register**

42. At the 24 October 2017 Growth and Infrastructure Committee meeting an update on Illegal Street Races and Antisocial Driving Behaviour was included in the GM’s Report.

43. It was proposed that a report be brought to the Regulatory and Hearings Committee meeting with recommendations on some initial locations to implement the Light Vehicle Bans following completion of consultation with adjacent property owners and business in the area.

44. The Light Motor Vehicle Prohibition clause in the Hamilton City Traffic Bylaw 2015 allows the Council, by resolution, to restrict or prohibit any vehicle under 3500kg (cars, utes and vans) from being on these streets between the hours of 9pm and 4am, unless they are there on legitimate business.

45. These changes will not affect legitimate road users such as business employees, residents and anyone with a genuine reason for being on the street. The purpose of the clause is to prevent nuisance and anti-social road users from accessing the street and creating problems.

46. The NZ Police have ‘heat maps’ which illustrate the locations for which they are receiving complaints regarding ‘boy racer’ activities.
Based on discussions with NZ Police, the following locations were chosen as potential sites for Light Vehicle Bans:

- Quentin Drive
- Quail Place
- Gallagher Drive
- Clow Place

The identified streets have a history of problems such as noise, illegal driving behaviour (excessive speed, burnouts etc), property vandalism (tagging) and rubbish dumping.

47. Consultation has been undertaken regarding the proposal via a letter drop of a flyer to businesses on these streets (refer Attachment 3) and information on our ‘Have Your Say’ component of the Hamilton City Council website. An article was also included on the front page of the Waikato Times on 1 February 2018.

48. A total of 27 responses were received with 16 (47%) in support of the proposal and 18 (53%) against the proposal. Comments were made by some of the submitters and a verbatim copy of these comments is included in Attachment 4 to this report.

49. Submitters who were against the proposal indicated that this approach was not addressing the key issue and may even irritate it. Suggestions of providing locations for ‘boy racer’ gatherings and activities were made, along with dealing with more important issues such as robberies at dairies and gas stations. Submitters who were against the proposal were generally individuals who did not have a business in the roads that the Light Vehicle Ban was proposed.

50. Submitters who were in support of the proposal were often business owners/organisations located on roads that the Light Vehicle Ban was proposed. There were comments about the rubbish and debris left by the ‘boy racers’ as well as requests for other roads to be included in the ban eg Onion Road.

51. Given the very limited scope of the roads that are proposed for the Light Vehicle Ban, the fact that there is good support from the businesses in the area and the NZ Police records of the large number of complaints in this area, staff believe that it is appropriate to implement the Light Vehicle Ban as proposed.

52. It is therefore proposed that the following restrictions be added to the Light Motor Vehicle Prohibitions Register – Part 2: Motor Vehicles under 3,500kg:
Location | Description
--- | ---
Quentin Drive | From the intersection with Kahikatea Drive to its northern end
Quail Place | From the intersection with Quentin Drive to its western end
Gallagher Drive | From the intersection of Kahikatea Drive to its southern end
Clow Place | From the intersection of Gallagher Drive to its western end

**Legal and Policy Considerations**

53. Staff confirm that the staff recommendation complies with the Council’s legal and policy requirements.

**Financial Considerations**

54. Funding for the implementation of the proposed changes is included in the 2017/18 City Transportation Operations and Parking Activity budgets along with the Discretionary Transport Capital Programme.

**Risks**

55. There are no risks associated with these proposals. Consultation with all directly affected parties has been undertaken.

**Significance & Engagement Policy**

**Significance**

56. Staff considered the following factors under the Significance and Engagement Policy:
   - The form of engagement used in the past for similar proposals and decisions.
57. Based on these factors, staff have assessed that the recommendations have low significance.

**Engagement**

58. Community views and preferences are already known to the Council through the consultation that has been undertaken prior to the preparation of this report.

- Bus lane time period to be extended to be 6am to 6.30pm
- Court House
Gallagher Dr, Quentin Dr and surrounding streets have a history of night time light vehicle problems such as noise, illegal driving behaviour (excessive speed, burnouts etc), property vandalism (tagging) and rubbish dumping.

Hamilton City Council is proposing to help the New Zealand Police address these issues by imposing a night-time Light Vehicle Restriction in the streets marked in orange to the right.

This means that cars, utes and vans will be banned from these streets between the hours of 9pm and 4am, unless they are there on legitimate business. These changes will not affect legitimate road users such as business employees, residents and anyone with a genuine reason for being on the street.

Have Your Say
Your views on this proposal are important to us. Go to hamilton.govt.nz/haveyoursay.

Submissions close 5pm, 11 February 2018.
Have questions?
If you wish to discuss this proposal in more depth or if you have questions please contact Robyn Denton, Network Operations Team Leader, phone 07 838 6699 or email robyn.denton@hcc.govt.nz.

Below is an example of what the ‘No Entry’ signs will look like.
If you see one of these and you are in the area for a genuine reason, you will not be fined.

OR OPERATION OF VEHICLES UNDER 3500 kg
9.00PM - 4.00AM
EXCEPT FOR OWNERS AND OCCUPIERS AND THEIR BONA FIDE VISITORS

<thead>
<tr>
<th>Submissions against the proposed introduction of a Light Vehicle Ban.</th>
<th>Address of Submitter</th>
</tr>
</thead>
<tbody>
<tr>
<td>(53% of submitters did not support the proposal)</td>
<td></td>
</tr>
<tr>
<td>&quot;Whilst I agree to many of the key factors in the background of this proposal, I see this as Hamilton City Council and the police putting a rug over the issue. The anti-social driving behaviour will continue and there will always be new locations used by these people. Why don’t the council invest in offering a rural location for these people at their own risk to use? It will drive the problem away from town and noise and allow the police to monitor in a safe environment. The police have powers under the boy racer act to break up these gatherings but they don’t. Putting these bylaws in place are silly and a waste of ratepayers money unless you make the rule across the whole of Hamilton City. Resolve the issue don’t irritate it!&quot;</td>
<td>Frankton</td>
</tr>
<tr>
<td>I think you guys should focus on all the ram raids and shop robberies. I think more shop owners/ public are in danger then burnt rubber.</td>
<td>Rotokauri</td>
</tr>
<tr>
<td>Waste of time and money. Focus on real issues. Gas stations and dairys getting robbed. Help the people that actually need your help</td>
<td>Pukete</td>
</tr>
<tr>
<td>Usually everyone is considerate of people who work there and need to get in. If it is such an issue create a spot for them to do their skids etc away from people and industrial areas and charge $10 a car every Friday night. If they get injured its their fault. Would free up police to deal with actual crimes, get the boy racers off the streets, making them safer. The people in the industrial areas wouldn’t have a problem and the boy racers would have a spot to use. Everybody wins. And to fund the making of such a space have the boy racers set up a give a little place so everyone can help out to get it made.</td>
<td>Frankton</td>
</tr>
<tr>
<td>Focus on more important things</td>
<td>Pukete</td>
</tr>
<tr>
<td>Said vehicles group up within these small cul-de-sac don’t cause any issues with any businesses or there premises. Generally not messy, rubbish in these areas is a relevant issue regardless of these people meeting up. In comparison I’d rather see them meet in these industrial areas where they are around normal drivers on route with there own business. They are away from children and pedestrians. We would rather them being down there than anywhere else. They seem well organised</td>
<td>Frankton</td>
</tr>
<tr>
<td>Do not support gives police to take money from innocent people</td>
<td>Nawton</td>
</tr>
<tr>
<td>Better place for them to do skids than in the city centre</td>
<td>Nelson</td>
</tr>
<tr>
<td>No</td>
<td>Chartwell</td>
</tr>
<tr>
<td>Item 4</td>
<td></td>
</tr>
<tr>
<td>-----------------</td>
<td>-----------------</td>
</tr>
<tr>
<td>Its pathetic get these guys a place to hang out fix the problem properly instead of revenue gathering</td>
<td>Pukete</td>
</tr>
<tr>
<td>That's pretty shit really I don’t live in Hamilton anymore and defiantly have never skidded around there BUT I have been to park ups at night over there and it is always a awesome time!! I’m a 28 yr old female and I think all the van will do is push them somewhere else to do skids... why not give them somewhere to go instead? Ngongotaha Motorsport is a locally owned skid pad that’s cheap as chips to use, it has got a lot “Boys” and girls off the streets and skidding on the pad most weekends. Waikato council need to do something the same open it every weekend night give them somewhere safe to go or like I said they will move somewhere else to park up and hang out... It’s just a bit of fun NZ is turning so shit with all these rules! Like you didn’t have good times when u where younger the tagging is shit yes but you will never ever stop them I guarantee this will make them retaliate! Thank you</td>
<td>Rotorua</td>
</tr>
<tr>
<td>Putting a ban on light vehicles will not only cause drama within the community but throughout the city.</td>
<td>St Andrews</td>
</tr>
<tr>
<td>Too open for interpretation/abuse. Slippery slope towards a police state (don’t laugh, its hundreds of little laws/changes like this that eventually add up). Existing disorderly conduct laws should be more than sufficient</td>
<td>Glenview</td>
</tr>
<tr>
<td>I understand that people are sick of the rubbish left behind as well as the bottles i think that’s just idiotic. But since cops wont give us anywhere else to go do skids and have a yarn and we’re chased out of quiet areas were forced to go to places like quiet business streets where were out of the way of others on the road. Everything is going to cause some sort of problems but the easiest solution is just give everyone somewhere to go and we’re out of sight out of mind and can be left to our own domains.</td>
<td>Melville</td>
</tr>
<tr>
<td>Submissions in support of the proposed introduction of a Light Vehicle Ban</td>
<td>Address of Submitter</td>
</tr>
<tr>
<td>------------------------------------------------------------------------</td>
<td>----------------------</td>
</tr>
<tr>
<td>As Manager of Higgins Contractors Waikato on Gallagher Drive, we fully support any proposal that will reduce vandalism and reckless driving.</td>
<td>Melville</td>
</tr>
<tr>
<td>Believe its a good idea</td>
<td>Cambridge</td>
</tr>
<tr>
<td>As a business on Quentin Drive, we fully support and endorse this proposal.</td>
<td>Hamilton Lake</td>
</tr>
<tr>
<td>We have had a visit from your people today, and would like to say we 100 per cent support this.</td>
<td>Melville</td>
</tr>
<tr>
<td>What about a ban in Onion road? This area has boy racers every Thursday, Friday and Saturday nights and being a resident of this area I am sick of it. Yes I have dialled star 555, but by the time the police arrive they have gapped it!</td>
<td>Horotiu</td>
</tr>
<tr>
<td>Fully support this. With ability to bring in other streets very easily for council.</td>
<td>Thames</td>
</tr>
<tr>
<td>Good idea and could work. From experience its well and good having the bylaw, but there needs to be a process there to enforce them</td>
<td>Melville</td>
</tr>
<tr>
<td>It won’t fix the problem. It will move the problem. Christchurch has done it and only the locations changed.</td>
<td>Rangariri</td>
</tr>
<tr>
<td>Great idea! Implement it!</td>
<td>Dinsdale</td>
</tr>
<tr>
<td>Can you please add Grasslands Place. They also use this road as a skid pad.</td>
<td>Frankton</td>
</tr>
<tr>
<td>Great initiative. Hope to see some further bans on other problem areas in future too</td>
<td>Frankton</td>
</tr>
<tr>
<td>Great to see some action being taken against the boy racers....... if only this law could be extended to other areas like Raynes Rd (Hamilton airport area) and Onion Rd.</td>
<td>Tamahere</td>
</tr>
<tr>
<td>We fully support this restriction for all of the streets outlined in the letter. Our facility at 15 Clow place has been affected by dumped rubbish and tyre debris in the turning circle in front of the building after hours. (We do have video footage and stills of burnouts if required). We believe this is an excellent step in protecting the properties, keeping legitimate drivers safe and keeping all businesses around this area free from anti-social behaviour.</td>
<td>Frankton</td>
</tr>
</tbody>
