Further to your information request of 18 January 2020 in respect of HCC remuneration structure, I am now able to provide Hamilton City Council's response.

You requested:

If you use a system of standard salary bands for full-time salaried staff:

1. What are those bands for the current year, including minimum, 100%, and maximum pay values, and the average amount actually paid?
2. What are the job titles (including team/business unit) in use for full-time salaried staff?
3. Which band or bands does each of those job titles fall into, and for each job title + band how many people fall into that combination?

Our response:

Please find attached the information you requested.

The spreadsheet contains the following -

- TAB 1 - all Council roles and where they sit in the organisation along with the numbers of employees per role
- TAB 2 – our current remuneration grades for our salaried employees are on TAB 1 along with the number of salaried employees that sit within each grade and what the average percentage in range is against grade.
- TAB 3 – our job families and the grade ranges that they cover.

Details that identify remuneration details of Hamilton City Council employees have been withheld under section 7(2)(a) - where good reason for withholding information exists if the withholding of the information is necessary to protect the privacy of natural persons.

Please feel free to contact me if you have any further questions.

Kind regards,

Michelle van Straalen
