Further to your information request of 27 January 2020 in respect of the *Dixon Road Roundabout*, I am now able to provide Hamilton City Council's response.

You requested:

Please advise what the initial expected cost of the Dixon Road roundabout was. Has the budget for this been increased and if so, to what amount and why the increase is required.

Our response:

1. The HIF Detailed Business Case (November 2017) included \$12.6M for the SH3 Intersection and East West Arterial Stage 1B Section. This did not include stormwater.
2. The total current budget for construction of the roundabout and part of the of the Peacocke East-West minor arterial is \$15.7M (including services and stormwater).
 - a. The enabling works (CON 18211) for utility diversions incorporating some renewals was completed in 2019 at approximately \$2.5M.
 - b. The main contract under way including some stormwater and services (CON 18532) was awarded at approximately \$10.8M.
2. Since the Southern Links designation process began in 2010, several Council objectives have been introduced, best practice standards have increased and legislation/regulation dictating some design aspects have changed. This means the design, particularly for the transport network, will be subtly different than assumed at the time of designation. Changes are mostly cost neutral; however, some changes, for example the need to achieve Vision Zero and designing to current seismic and stormwater design standards, will have cost implications that will need to be factored into updated project estimates.

Please feel free to contact me if you have any queries regarding your request. If you require further information I am able to facilitate a meeting with the appropriate Hamilton City Council staff.

Kind regards,

Michelle van Straalen
