

Name: Manon Cellier
Organisation (if applicable):

WHICH OPTION DO YOU SUPPORT?

- Option 1 (the Council’s proposal): Right investment, right time**
Comments:

- Option 2: Borrow more, do some projects earlier**
Which projects would you like to see completed earlier and why?

- Option 3: Borrow less, do some projects later**
Which projects would you like to see deferred to later and why?

Other:

- None of these options** Yes
Comments: Right investment, right time but different way to allocate the money : allocate more money for the development of cycle paths that are safe for people to use. This way, people can bike safely to work or to anywhere they want to go to. Lots of people want to bike but it is really not safe due to all the traffic.
I think it is really important to improve a safe cycling accessibility in the city. And to have safe and enjoyable cycle paths that are useful for everyday life, as a mean of transport as important as cars.

- Don’t know**
Comments:

PROPOSAL TO PERMANENTLY CLOSE THE MUNICIPAL POOL

Do you support or oppose the proposal to permanently close the Municipal Pool? Support

Comments: As long as the gallagher pools are still open and thus that there are options for people to go to swimming pools, there is no problem.

OTHER COMMENTS:
