Dear Carmen

Hamilton District Plan Change No.6

With reference to your correspondence on 8 April 2020 (email to Nathanael Savage).

Hamilton City Council (as a submitter) notes that the s42A report recommendation is to accept the relief sought in its submission (#23).

The reporting planners' recommendation is supported and on that basis Hamilton City Council (as a submitter) no longer requests time to speak to its submission at the pending hearing.

If you have any questions please contact Nathanael Savage, Principal Planner – Infrastructure in the first instance. We are also happy to assist the reporting planner with any questions the Commissioners may have.

Regards

Andrew Parsons
