

HAMILTON CITY COUNCIL

**HEARING OF PLAN CHANGE 3: TEMPLE VIEW BOUNDARY ALTERATION TO HAMILTON CITY
DISTRICT PLAN**

DIRECTIONS 3 FROM HEARINGS PANEL

Introduction

We, Shane Solomon and Murray Kivell (Chair) issued Directions 2 at the adjournment of the hearing on Thursday 20 June 2019.

The adjournment was to provide the time requested by the Council as the Plan Change proponent to complete and file its written right-of-reply, a step it is entitled to fulfil as part of the hearing process.

While much of the information requested has been provided by the due timeframes set out in our Directions 2 we were advised that a number of detailed engineering design matters were outstanding and that the parties were working to address these matters.

The outstanding matter is understood to concern stormwater management.

We still seek the pre-circulation of this outstanding information so the Panel can strive for the efficient management of the reconvened hearing. The following Direction is for this purpose.

Directions 3

The Panel directs that:

1. the Council and the parties pre-circulate the outstanding information along with comment as to the matters agreed and or dis-agreed between the parties; and
2. the outstanding information be available to the Panel by no later than **10am, Wednesday 14 August 2019**, being one day prior to the re-scheduled date of Thursday 15 August for the reconvened hearing.

Murray Kivell
Hearing Panel Chairperson
