Hi Sarah,

Thanks for your communication with the Amberfield submissions.

During my verbal submission last week. I shared with the Panel and council members that I would provide the notes of my verbal summary of my submission. (attached)

Can you please send this to all the officials who attended the hearing plus please send to the councillors who will be voting on the Amberfield development.

I have noted below the critical points I made around Health and Safety.

And for every individual involved in making the decision with the Amberfield programme I would suggest you must get your own expert and legal advice. Because you have been made aware of the H&S risks in my submission. All those who ignore these safety warnings and vote blindly.. Should someone get seriously hurt or even worse killed Worksafe will check and council members could be found personally liable. As a company owner and city leaders we make serious decisions that have serious consequences. Health and Safety cannot be compromises. Please heed my concerns.. I would strongly suggest you have your internal council Heath & Safety team assess the risk for all the options.

Please let me know once you have distributed.

Many thanks Allan
