

# Traffic Management Levels

## Level of Roads

Level	AADT	Comments
Level LV low risk	<250vpd	
Level LV	<500vpd	
Level 1	<15,000vpd Urban <10,000 Rural	
Level 1 Advanced	>10,000vpd	Wairere Drive Ulster Street Te Rapa Road Cobham Drive from Normandy to Anzac Parade
Level 2 low speed	>15,000vpd	<65km/h New Zealand Transport Agency Roads
Level 2	>15000vpd Urban >10,000vpd Rural	New Zealand Transport Agency Roads

## Advanced Level One Roads

- Require first signs to site Level 2
- All signs being gated to Level 2 standard
- Spacing of signs and cones to be level 1 standards
- Setup of the temporary traffic management to be undertaken to Level 1 standards
- STMS for the site to be qualified to Level 1 standard

The roads that have the following characteristics will need to have Advanced Level One temporary traffic management to apply:

- Speed limit equal to or greater than 60, 70 or 80km/hr and
- Traffic volumes greater than 10,000 vehicles per day and
- Dual carriageway

## Arterial Roads

Apart from emergency works, no works that interferes with traffic flow on arterial road shall be carried out during the peak traffic periods of 7.30am – 9.00am and 3.00pm to 5.30pm Monday to Friday, or during major events, without specific approval from the Traffic Management Coordinator (TMC).
